

Achieved Goals

- We have helped the local community to sterilize, vaccinate and chip dogs and cats by creating a dynamic and effective collaboration with the veterinary clinic **Companhia Animal** in Madalena do Pico: Beatriz and Caterina, both vets of the clinic, immediately showed passion and empathy towards all the animals treated and proved to fully share our goals.
- We have also given a support to the organization **Santuário Animal do Pico** to tackle the sterilization of street and colony cats with the dual modalities: Capture - Sterilization - Release in colony or Capture - Sterilization - Adoption.

Neutered Animals in 2020	1° trimester	2° trimester	3° trimester	4° trimester	Total:
Dogs	3	3	2	6	14
Cats	9	6	14	51	80

Notes: Considering that PicoDogs is still a new organization in the community, as these campaigns to help the local population are, we are very satisfied with what we have achieved during the year 2020. We have also sponsored the Electronic Identification (CHIP) of 84 animals and 22 vaccinations.

Ongoing and future projects

- To continue the campaign to help local people to sterilize, vaccinate and chip owned dogs and cats and street and colony cats. In particular, aiming at increasing the number of sterilized dogs, hence decreasing the number of dogs abandoned in kennels, we are going to carry out a "door-to-door" **awareness campaign**, intended for that part of the community with less economical means.
- To implement educational campaigns for local population with particular attention to young people. In order to engage these generations, we have decided to increase the online information content such as articles, posts and videos on our web site and to create a **YouTube** channel with short educational videos featuring interviews with professionals and specialist that collaborate with PicoDogs.
- To continue with the building of PicoDogs **Rescue Centre**.
